REMARKS

The application has been carefully reviewed in light of the non-final Office Action mailed March 6, 2008. Claims 1-17 are pending. By this Amendment, claims 1,3 and 10 have been amended to clarify the claimed subject matter. Accordingly, claims 1-17 would remain pending upon entry of this Amendment, with claims 1, 10, 12 and 15 being in independent form.

Applicant appreciates the allowance of claims 12-17 and the indication that claims 3-5 would be allowed if re-written in independent form.

The Drawings were objected to.

Replacement sheets of the drawing are appended to this paper. Each sheet is labeled "Replacement Sheet" as required in the Office Action. Withdrawal of the objection to the drawings is requested.

Claims 1, 2 and 6-11 were rejected under 35 USC § 101 as directed to non-statutory subject matter for failure to provide a concrete, tangible result.

Independent claims 1 and 10 of the present application have been amended to include "forming, by computer processing, GMS and WMS images using information from said GMS and WMS signals." Applicant submits that this language recites a concrete and tangible result and, therefore, independent claims 1 and 10 are directed to statutory subject matter at least for that reason. The remaining claims (2, 6-9 and 11) in this group are dependent claims that are directed to statutory subject matter at least by virtue of their dependency from the amended parent claims.
